Caixing Wang

wangcaixing96@gmail.com 15801856962 wangcaixing96.com

Working Experience

Southeast University *Aug 2025 – Now*
Assistant Professor in School of Statistics and Data Science

The Chinese University of Hong Kong *Aug 2024 – July 2025*
Postdoc in Statistics

- Mentor: Professor Junhui Wang

Education

Shanghai University of Finance and Economics *Sept 2019 – June 2024*
Ph.D. in Statistics

- Supervisor: Professor Xingdong Feng, Associate Professor Xin He

Shanghai University of Finance and Economics *Sept 2015 – June 2019*
B.S. in Statistics

Research Interets

Statistical Machine Learning; Kernel Methods; Quantile Regression; Large-scale and Distributed Data Analysis; Deep Learning

Journal Publications (* and † refer to corresponding author and equal contributions (or Alphabet ordering))

[1]. Estimation of conditional extremiles in reproducing kernel Hilbert spaces with application to large commercial banks data. Fang Chen†, **Caixing Wang†***. **Statistica Sinica**, 2025+, accepted.

[2]. Deep nonparametric quantile regression under covariate shift. Xingdong Feng†, Xin He*†, Yuling Jiao†, Lican Kang*†, **Caixing Wang**†. **Journal of Machine Learning Research** 25 (385), 1-50.

[3]. Communication-efficient nonparametric quantile regression via random features. **Caixing Wang**, Tao Li, Xinyi Zhang, Xingdong Feng, Xin He*. **Journal of Computational and Graphical Statistics**, 2024, 33(4), 1175–1184.

[4]. A lack-of-fit test for quantile regression process models. Xingdong Feng*, Qiaochu Liu, **Caixing Wang**. **Statistics & Probability Letters** 192, 109680, 2023.

Conference Publications

[5]. Distributed high-dimensional quantile regression: estimation efficiency and support recovery. **Caixing Wang***, Ziliang Shen. **International Conference on Machine Learning(Spotlight)** , 2024, 235: 51415-51441.

[6]. Optimal kernel quantile learning with random features. **Caixing Wang**, Xingdong Feng*. **International Conference on Machine Learning (Spotlight)**, 2024, 235: 50419-50452.

[7]. Towards theoretical understanding of learning large-scale dependent data via random features. Chao Wang, Xin He*, Xin Bing, **Caixing Wang***. **International Conference on Machine Learning (Spotlight)**, 2024, 235: 50118-50142.

[8]. Towards a unified analysis of kernel-based methods under covariate shift. Xingdong Feng†, Xin He†, **Caixing Wang***†, Chao Wang†, Jingnan Zhang†. **Advances in Neural Information Processing Systems**, 2023, 36: 73839-73851.

Preprints

[1]. Optimal transfer learning for kernel-based nonparametric regression. Chao Wang†, **Caixing Wang†**, Xin He, Xingdong Feng. **Major Revision in Journal of American Statistical Association.**

[2]. Improved statistical analysis for spectral algorithms under general conditions: optimality and robustness. **Caixing Wang, Qiang Heng, Qi Kuang, Xingdong Feng**. **Major Revision in Journal of American Statistical Association.**

[3]. Generalization properties of robust learning with random features. **Caixing Wang**, **Major Revision in IEEE Transactions on Pattern Analysis and Machine Intelligence.**

[4]. Estimation and inference on distributed high-dimensional quantile regression: double-smoothing and debiasing. **Caixing Wang**, Ziliang Shen, Shaoli Wang, Xingdong Feng. **Under review.**

[5]. Distributed learning for adaptive and robust nonparametric regression. **Caixing Wang**. **Under review.**

[6]. Inertial quadratic majorization minimization with application to kernel regularized learning. Qiang Heng, **Caixing Wang***. **Under review.**

[7]. High-dimensional differentially private quantile regression: distributed estimation and statistical inference. Ziliang Shen, **Caixing Wang**, Shaoli Wang, Yibo Yan. **Under review.**

[8]. Optimal Sobolev norm learning rates for spectral algorithms with random projections. **Caixing Wang**, Yue Wang. **Under review.**

[9]. Enhancing fairness and efficiency in image classification via weighted SVD-based fine-tuning of large pre-trained models. **Yixuan Zhang, Jiabin Luo, Caixing Wang**, **Under review.**

Reviewer Services

Journal: *Journal of American Statistical Association (JASA), Journal of the Royal Statistical Society Series B (JRSSB), The Annals of Applied Statistics (AOAS), Journal of Computational and Graphical Statistics (JCGS), Statistica Sinica, Statistics and Its Interface (SII), Econometrics Review, Journal of Parallel and Distributed Computing (JPDC)*

Conference: *International Conference on Learning Representations (ICLR)*, *Neural Information Processing Systems (NeurIPS)*

Open-source Software

- **DisRFKQR**: R package for "Communication-efficient nonparametric quantile regression via random features" accepted by JCGS.
- **DQR-covariate-shift**: Python package for "Deep nonparametric quantile regression under covariate shift" accepted by JMLR.
- **DHSQR**: R package for "Distributed high-dimensional quantile regression: estimation efficiency and support recovery" accepted by ICML.
- **Kernel-CS**: Python package for "Towards a unified analysis of kernel-based methods under covariate shift" accepted by NeurIPS.

Talks

International Conference on Statistics, Data Science and Artificial Intelligence (2024) *CCUT, Changchun*

- Deep quantile regression under covariate shift

The 1st International Conference for PhD Pioneers (2024) *RUC, Bejing*

- Optimal transfer learning for kernel-based nonparametric regression

The 2nd Conference for Chinese Statistical Association of Young Scholars (2024) *JNU, Xuzhou*

- Towards a unified analysis of kernel-based methods under covariate shift

Teaching Experience

Teaching Assistant *2020-2024*

- Undergraduate Courses: Survival analysis, Extreme value theory.

Skills

- **Language:** Strong reading, writing and speaking competencies for English and Chinese.
- **Programming:** Python, R, C++.
- **Operating Systems:** Windows, MacOS, Linux.
- **Documentation:** LATEX, Markdown, MS Office.
