Working Experience

Southeast University

Aug 2025 – Now

Assistant Professor in School of Statistics and Data Science

The Chinese University of Hong Kong

Aug 2024 – July 2025

Postdoc in Statistics

- Mentor: Professor Junhui Wang

Education

Shanghai University of Finance and Economics

Sept 2019 – June 2024

Ph.D. in Statistics

- Supervisor: Professor Xingdong Feng, Associate Professor Xin He

Shanghai University of Finance and Economics

Sept 2015 – June 2019

B.S. in Statistics

Research Interests

Statistical Machine Learning; Kernel Methods; Quantile Regression; Large-scale and Distributed Data Analysis; Deep Learning

Journal Publications (* and † refer to corresponding author and equal contributions (or Alphabet ordering))

- [1]. Generalization properties of robust learning with random features. **Caixing Wang***, **IEEE Transactions on Pattern Analysis and Machine Intelligence**. 2026+, accepted.
- [2]. Estimation of conditional extremiles in reproducing kernel Hilbert spaces with application to large commercial banks data. Fang Chen[†], **Caixing Wang^{†*}**. **Statistica Sinica**, 2025+, accepted.
- [3]. Deep nonparametric quantile regression under covariate shift. Xingdong Feng[†], Xin He^{*†}, Yuling Jiao[†], Lican Kang^{*†}, **Caixing Wang[†]**. **Journal of Machine Learning Research** 25 (385), 1-50.
- [4]. Communication-efficient nonparametric quantile regression via random features. **Caixing Wang**, Tao Li, Xinyi Zhang, Xingdong Feng, Xin He*. **Journal of Computational and Graphical Statistics**, 2024, 33(4), 1175–1184.
- [5]. A lack-of-fit test for quantile regression process models. Xingdong Feng*, Qiaochu Liu, **Caixing Wang**. **Statistics & Probability Letters** 192, 109680, 2023.

Conference Publications

- [1]. Distributed high-dimensional quantile regression: estimation efficiency and support recovery. **Caixing Wang***, Ziliang Shen. **International Conference on Machine Learning(Spotlight)**, 2024, 235: 51415-51441.
- [2]. Optimal kernel quantile learning with random features. **Caixing Wang**, Xingdong Feng*. **International Conference on Machine Learning (Spotlight)**, 2024, 235: 50419-50452.
- [3]. Towards theoretical understanding of learning large-scale dependent data via random features. Chao Wang, Xin He*, Xin Bing, **Caixing Wang***. **International Conference on Machine Learning (Spotlight)**, 2024, 235: 50118-50142.

[4]. *Towards a unified analysis of kernel-based methods under covariate shift*. Xingdong Feng[†], Xin He[†], **Caixing Wang**^{*†}, Chao Wang[†], Jingnan Zhang[†]. **Advances in Neural Information Processing Systems**, 2023, 36: 73839-73851.

Preprints

[1]. *Optimal transfer learning for kernel-based nonparametric regression*. Chao Wang[†], **Caixing Wang**[†], Xin He, Xingdong Feng. **Major Revision in Journal of American Statistical Association**.

[2]. *Improved statistical analysis for spectral algorithms under general conditions: optimality and robustness*. **Caixing Wang**, Qiang Heng, Qi Kuang, Xingdong Feng. **Major Revision in Journal of American Statistical Association**.

[3]. *Estimation and inference on distributed high-dimensional quantile regression: double-smoothing and debiasing*. **Caixing Wang**, Ziliang Shen, Shaoli Wang, Xingdong Feng. **Under review**.

[4]. *Distributed learning for adaptive and robust nonparametric regression*. **Caixing Wang**. **Under review**.

[5]. *Inertial quadratic majorization minimization with application to kernel regularized learning*. Qiang Heng, **Caixing Wang**^{*}. **Under review**.

[6]. *High-dimensional differentially private quantile regression: distributed estimation and statistical inference*. Ziliang Shen, **Caixing Wang**, Shaoli Wang, Yibo Yan. **Under review**.

[7]. *Optimal Sobolev norm learning rates for spectral algorithms with random projections*. **Caixing Wang**, Yue Wang. **Under review**.

[8]. *Enhancing fairness and efficiency in image classification via weighted SVD-based fine-tuning of large pre-trained models*. Yixuan Zhang, Jiabin Luo, **Caixing Wang**, **Under review**.

Reviewer Services

Journal: *Journal of American Statistical Association (JASA)*, *Journal of the Royal Statistical Society Series B (JRSSB)*, *The Annals of Applied Statistics (AOAS)*, *Journal of Computational and Graphical Statistics (JCGS)*, *Statistica Sinica*, *Statistics and Its Interface (SII)*, *Econometrics Review*, *Journal of Parallel and Distributed Computing (JPDC)*

Conference: *International Conference on Learning Representations (ICLR)*, *Neural Information Processing Systems (NeurIPS)*

Open-source Software

- **DisRFBQR**: R package for “Communication-efficient nonparametric quantile regression via random features” accepted by JCGS.
- **DQR-covariate-shift**: Python package for “Deep nonparametric quantile regression under covariate shift” accepted by JMLR.
- **DHSQR**: R package for “Distributed high-dimensional quantile regression: estimation efficiency and support recovery” accepted by ICML.
- **Kernel-CS**: Python package for “Towards a unified analysis of kernel-based methods under covariate shift” accepted by NeurIPS.

Talks

International Conference on Statistics, Data Science and Artificial Intelligence (2024) *CCUT, Changchun*

- Deep quantile regression under covariate shift

The 1st International Conference for PhD Pioneers (2024) *RUC, Beijing*

- Optimal transfer learning for kernel-based nonparametric regression

The 2nd Conference for Chinese Statistical Association of Young Scholars (2024) *JNU, Xuzhou*

- Towards a unified analysis of kernel-based methods under covariate shift

Teaching Experience

Teaching Assistant *2020-2024*

- Undergraduate Courses: Survival analysis, Extreme value theory.

Skills

- **Language:** Strong reading, writing and speaking competencies for English and Chinese.
- **Programming:** Python, R, C++.
- **Operating Systems:** Windows, MacOS, Linux.
- **Documentation:** LATEX, Markdown, MS Office.
